

WorkshopPLUS - SQL Server: Features and Administration

**Microsoft Open
Workshop**

May 21st – 23rd, 2025

John Deardurff

Senior Cloud Solution Architect (Global Delivery)

Microsoft Certified Trainer (2000 - Current)

MVP: Data Platform (2016 – 2019)

Email: John.Deardurff@Microsoft.com

Objectives

After completing SQL Server Features and Administration workshop, you will be able to:

Learn Maintenance and configuration best practices

Monitoring performance with extended events and performance monitor.

Discuss SQL Server performance enhancements.

Learn SQL Service Account best practices.

Understand Row Level Security and Dynamic Data Masking

Understand SQL Server encryption features including Always Encrypted.

Learn different strategies for meeting HA/DR SLAs with SQL Server

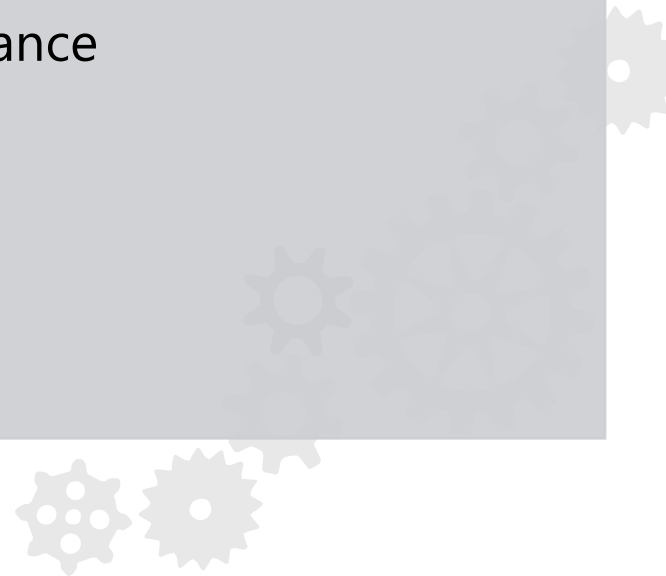

Understand the benefits of SQL Server Failover Clustering and SQL Server availability groups.

Agenda Day 1

SQL Server Configuration

- SQL Server Editions and Versions
- Windows Server Configuration
- SQL Server Configuration

Database Maintenance

- Database Configuration
 - Indexes and Statistics
 - Database Maintenance
- 
- A series of decorative gear icons of varying sizes and shades of gray, arranged in a cluster at the bottom right of the slide.

Agenda Day 2

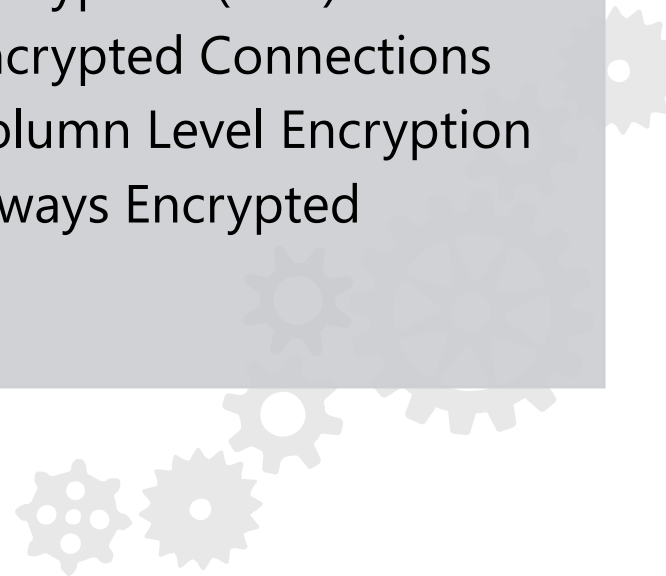

Monitoring And Troubleshooting

- Monitoring Tools
- Waits Methodology To Monitor Performance
- Execution Plans
- Query Store

Security – General

- Authentication and Authorization
- Row Level Security
- Dynamic Data Masking
- SQL Server Auditing

Security - Encryption

- Backup Encryption
 - Transparent Data Encryption (TDE)
 - Encrypted Connections
 - Column Level Encryption
 - Always Encrypted
- 

Agenda Day 3

SQL Server High Availability

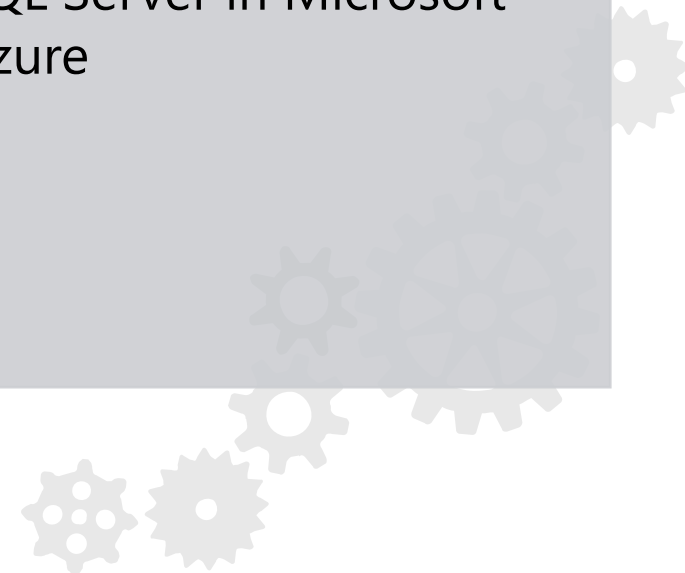

- Defining High Availability and Disaster Recovery
- Introduction to Failover Cluster Instances
- Introduction to Availability Groups

SQL Server Disaster Recovery

- Disaster Recovery
- Backups
- Restores
- Backup Features

SQL Server Platform Choices

- SQL Server on Linux
- SQL Server on Containers
- SQL Server in Microsoft Azure

Follow-up workshops

SQL Server Performance Tuning and Optimization (4-days)

SQL Server Security Essentials (3-days)

SQL Server: Always On Availability Groups

- Setup and Configuration (3-days)
- Monitoring and Troubleshooting (3-days)

Azure SQL Database Essentials (3-days)

The slide features several decorative gear icons. One gear is located on the right side of the slide, partially overlapping the 'SQL Server: Always On Availability Groups' section. Another gear is positioned at the bottom right, overlapping the 'Azure SQL Database Essentials' section. A cluster of three gears is located at the bottom right corner of the slide.

 Microsoft

What do you think about Microsoft Proactive Support services?

Microsoft is committed to providing the highest quality support services to our customers. Take a **2-minute survey** to help us understand what's going well, and what we can do better.

This survey is specific to your **Proactive Support services delivery**:

Overall, how satisfied are you with your recent experience with the Microsoft Proactive Support Services delivery?

☐ [Very satisfied](#)

☐ [Somewhat satisfied](#)

☐ [Somewhat dissatisfied](#)

☐ [Very dissatisfied](#)

☐ [Do not know](#)

Thanks for your feedback. If you need help, please [contact us](#).

Connect to Lab environment

Prerequisites and Overview

Using the desktop version of IE go to

- <https://aka.ms/premiereducation>

Sign in with your Microsoft account

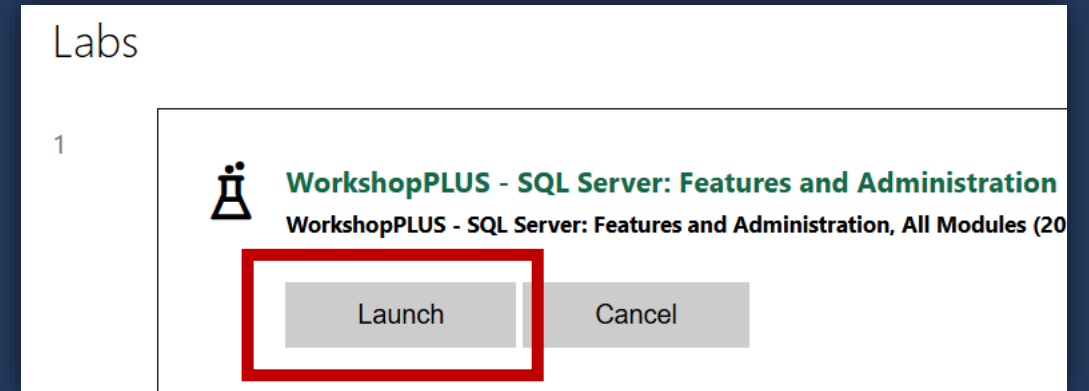

- Live ID or Azure ID
- If you do not have one, then create it here:
- <http://live.com>

Training Key

- WorkshopPLUS -> My Training (Select at the top)
- Select Redeem Training Key
- Enter Training Key

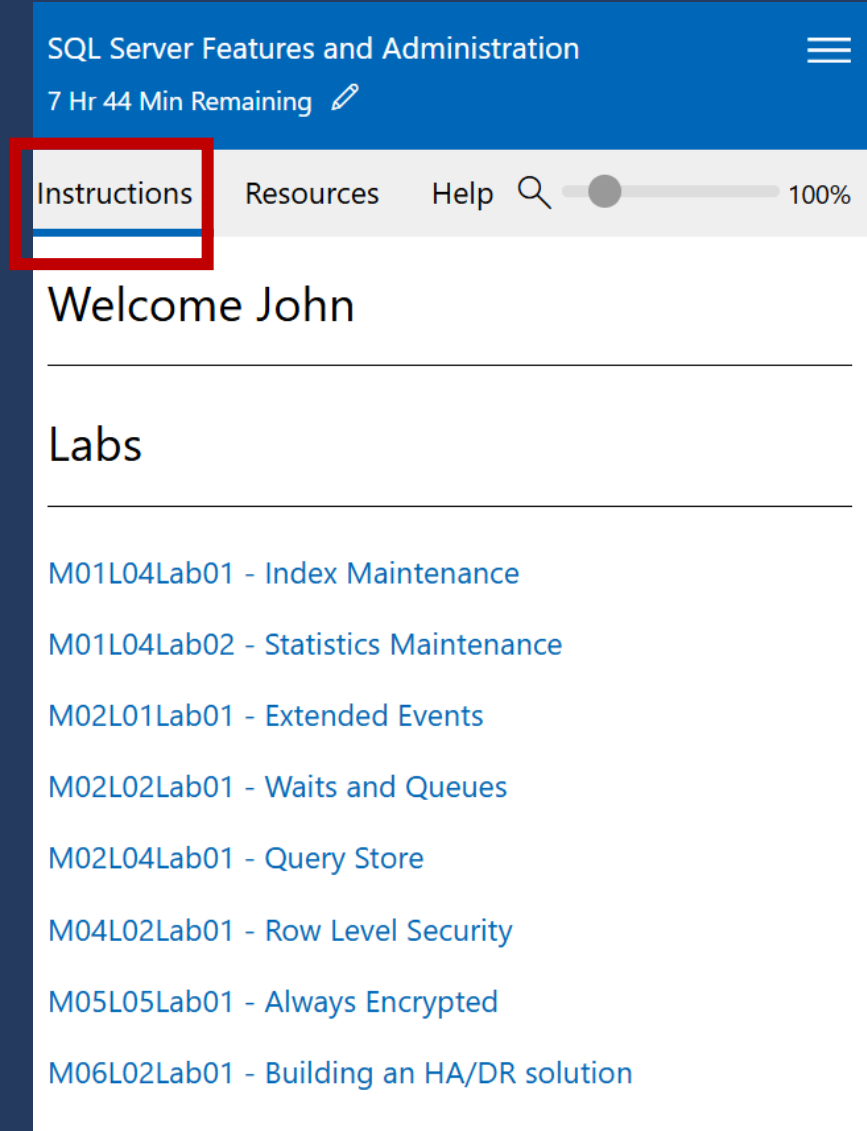

Launch Lab

In the Labs section, click Launch

Lab Instructions

The first page show the lab instructions.

The screenshot displays the 'SQL Server Features and Administration' interface. The top blue header bar contains the title 'SQL Server Features and Administration' and a hamburger menu icon on the right. Below the header, a grey navigation bar includes the 'Instructions' tab (highlighted with a red box), 'Resources', 'Help', a search icon, a volume slider, and a '100%' indicator. The main content area is white and begins with a 'Welcome John' message. Below this is a section titled 'Labs' which lists several lab topics as blue links: 'M01L04Lab01 - Index Maintenance', 'M01L04Lab02 - Statistics Maintenance', 'M02L01Lab01 - Extended Events', 'M02L02Lab01 - Waits and Queues', 'M02L04Lab01 - Query Store', 'M04L02Lab01 - Row Level Security', 'M05L05Lab01 - Always Encrypted', and 'M06L02Lab01 - Building an HA/DR solution'.

Welcome John

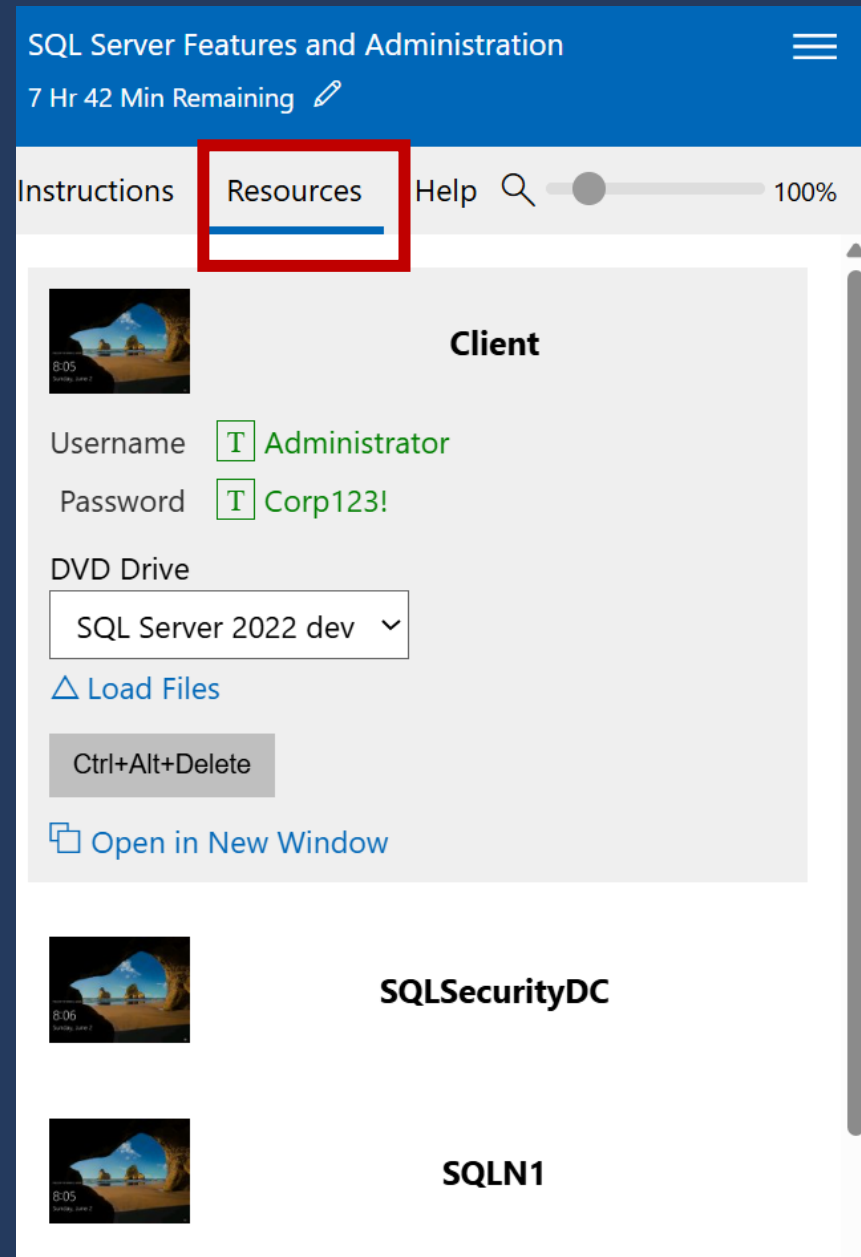

Labs

- M01L04Lab01 - Index Maintenance
- M01L04Lab02 - Statistics Maintenance
- M02L01Lab01 - Extended Events
- M02L02Lab01 - Waits and Queues
- M02L04Lab01 - Query Store
- M04L02Lab01 - Row Level Security
- M05L05Lab01 - Always Encrypted
- M06L02Lab01 - Building an HA/DR solution

Lab environment LOD

Click on the resources tab to switch between your virtual machines and to Login.

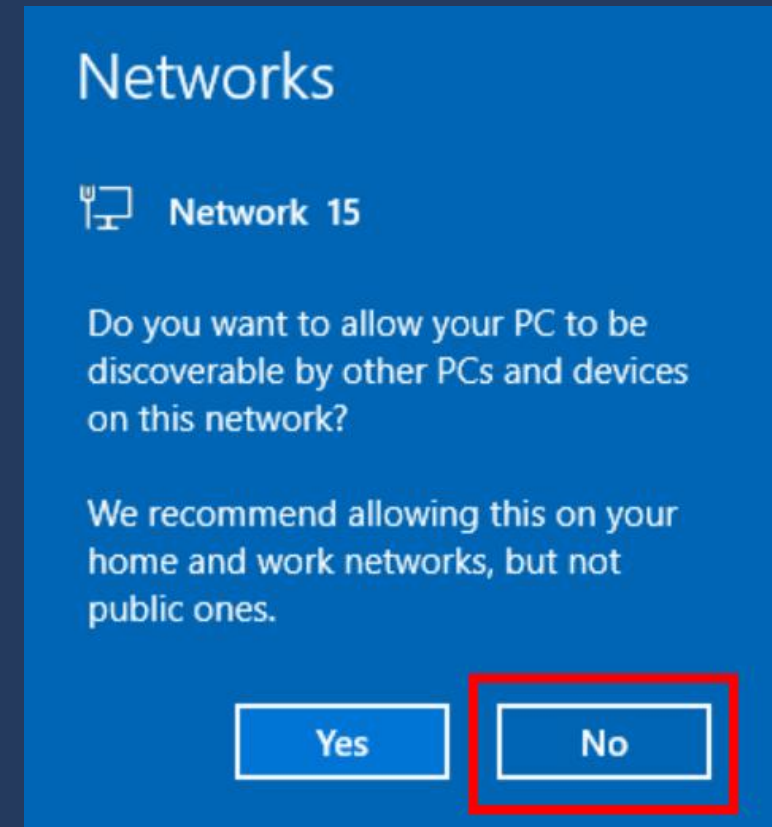

The **Green T** will paste in login information

Lab environment LOD Network Settings

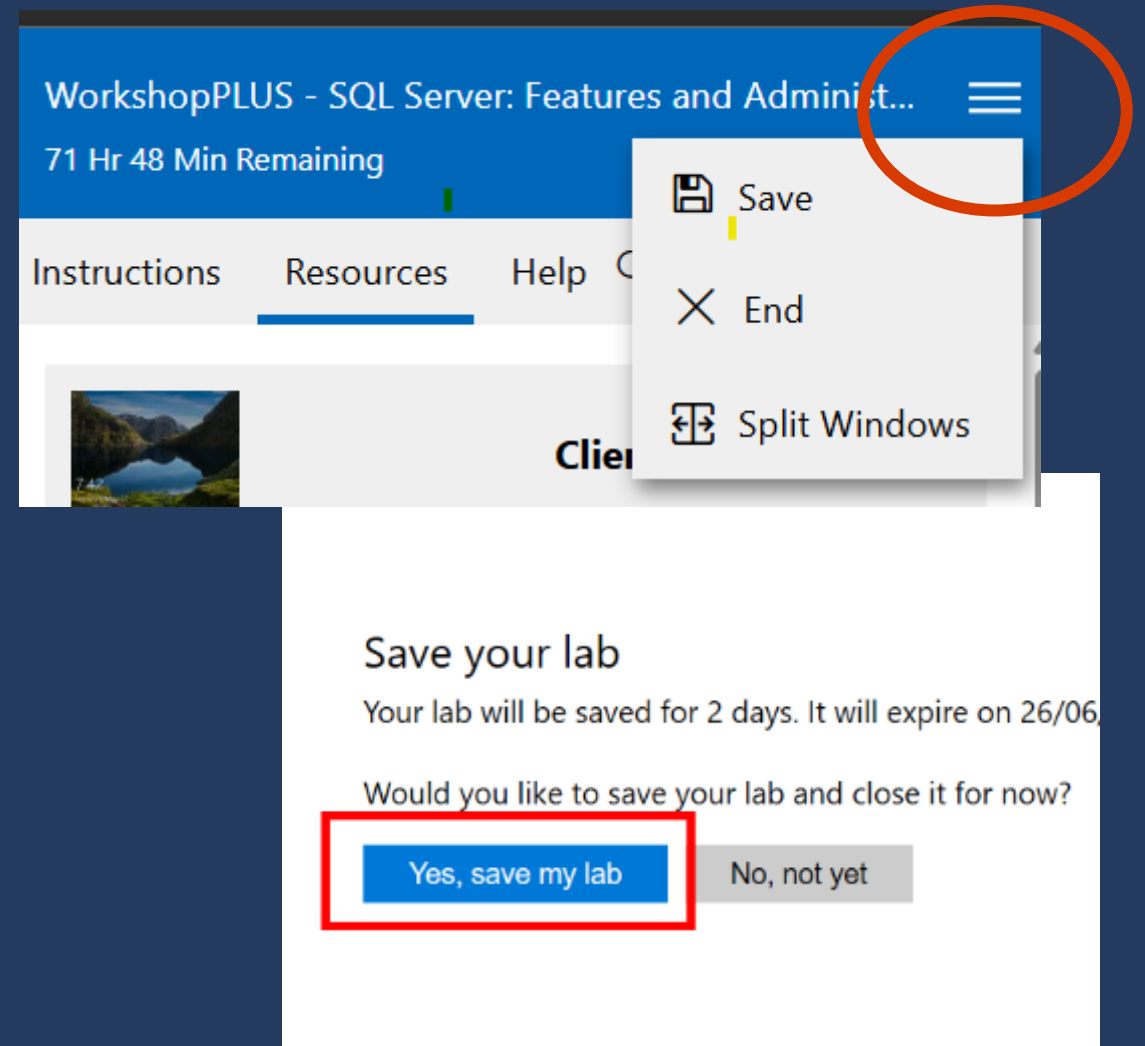

Select Yes or No to allow the server to be discoverable.

It doesn't matter in this training environment.

LOD Lab Time Remaining

Ensure you select Save before leaving the LOD environment. This pauses the time remaining to complete the Labs.

Lab environment

You can also use the lightning bolt in the top left corner to paste code from outside your virtual machine into your lab environment.
