# **Objectives**

After completing SQL Server Features and Administration workshop, you will be able to:

Learn Maintenance and configuration best practices

Monitoring performance with extended events and performance monitor.

Discuss SQL Server performance enhancements.

Learn SQL Service Account best practices.

Understand Row Level Security and Dynamic Data Masking

Understand SQL Server encryption features including Always Encrypted.

Learn different strategies for meeting HA/DR SLAs with SQL Server

Understand the benefits of SQL Server Failover Clustering and SQL Server availability groups.

# Agenda Day 1

# SQL Server Configuration And Database Maintenance

- Windows Server Configuration
- SQL Server Configuration
- Database Configuration
- Database Maintenance

#### Monitoring And Troubleshooting

- Monitoring Tools
- Waits Methodology To Monitor Performance
- Execution Plans
- Query Store

# Agenda Day 2

#### Performance Features

- In-Memory OLTP Objects
- Columnstore Indexes
- Intelligent Query Processing
- Automatic Tuning

#### Security – General

- SQL Service Accounts
- Dynamic Data Masking
- Row Level Security
- SQL Server Auditing
- SQL Server Ledger

# Agenda Day 3

#### Security -Encryption

- Backup Encryption
- Transparent Data Encryption (TDE)
- Encrypted
   Connections
- Column Level Encryption
- Always Encrypted

#### SQL Server High Availability

- Defining High Availability and Disaster Recovery
- Introduction to Failover Cluster Instances
- Introduction to Availability Groups

# SQL Server Disaster Recovery

- Disaster Recovery
- Backups
- Restores
- Backup Features

#### Cloud Connected

- Azure Arc-Enabled
   SQL Server
- Microsoft Azure
   Purview

# Follow-up workshops

SQL Server Performance Tuning and Optimization (4-days)

SQL Server Security Essentials (3-days)

SQL Server: Always On Availability Groups

- Setup and Configuration (3-days)
- Monitoring and Troubleshooting (3-days)

Azure SQL Database Essentials (3-days)

# **Get Ready to Participate**

Close email and Update Status
Make it interactive
Check all equipment
Be Respectful of Others

## **Attendee Introductions**

Name

Job/Team/Specialty

Time Zone

Experience

**Expectations** 

# Five Star Service

## Connect to Lab environment

Prerequisites and Overview

#### Using the desktop version of IE go to

https://aka.ms/premiereducation

#### Sign in with your Microsoft account

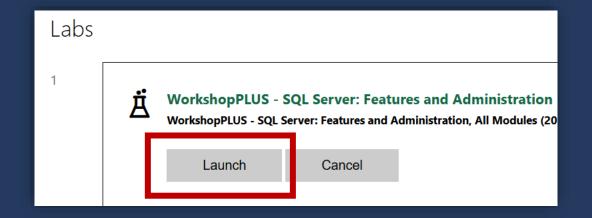

- Live ID or Azure ID
- If you do not have one, then create it here:
- http://live.com

#### Training Key

- WorkshopPLUS -> My Training (Select at the top)
- Select Redeem Training Key
- Enter Training Key

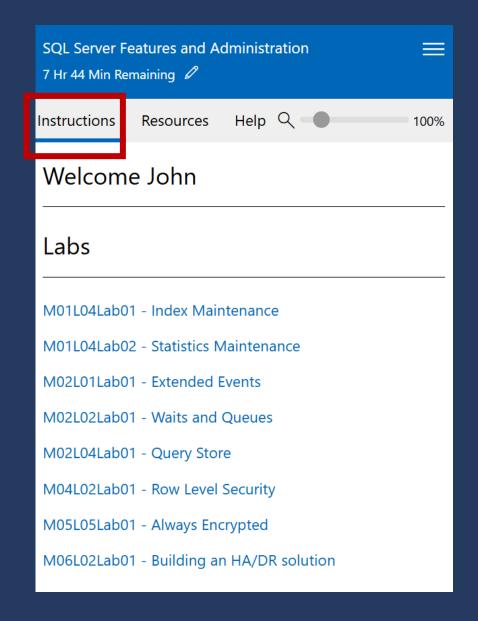

## Launch Lab

In the Labs section, click Launch

## **Lab Instrutions**

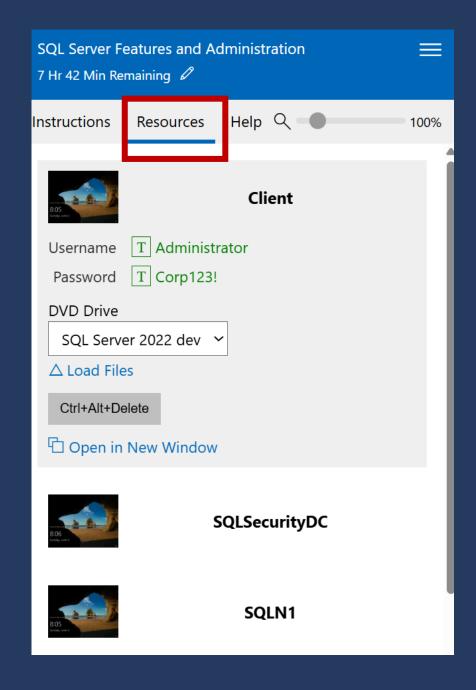

The first page show the lab instructions.

#### Lab environment LOD

Click on the resources tab to switch between your virtual machines and to Login.

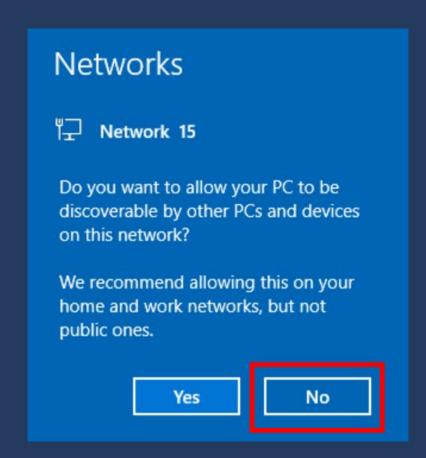

The Green T will paste in login information

# Lab environment LOD Network Settings

Select Yes or No to allow the server to be discoverable.

It doesn't matter in this training environment.

# LOD Lab Time Remaining

Ensure you select Save before leaving the LOD environment. This pauses the time remaining to complete the Labs.
